"Most of the time you don't need more information, you need more courage."

[James Clear]

NPM STAFF CULTURE

"Finish something. Anything."

A quote from author James Clear.

Stop researching, planning, and preparing to do the work and just do the work.

It doesn't matter how good or how bad it is. You don't need to set the world on fire with your first try. You just need to prove to yourself that you have what it takes to produce something.

There are no artists, athletes, entrepreneurs, or scientists who became great by half-finishing their work. Stop debating what you should make and just make something.

What do you want to be better at doing?

What's your plan to get going?

Six months from now
will be here either way.

You'll either be six months better than
you are at that thing or you'll be in the
same place as today.

Trying makes all the difference.
